

**REPORT OF THE BOARD OF DIRECTORS OF SUBSEA 7 S.A.
TO THE EXTRAORDINARY GENERAL MEETING OF SHAREHOLDERS ON 18 APRIL
2023 PREPARED IN ACCORDANCE WITH LUXEMBOURG COMPANY LAW ARTICLE
420-26(5)**

- A. Reference is made to the Notice dated 17 March 2023 of the Extraordinary General Meeting of Shareholders of Subsea 7 S.A. (the "Company"), such meeting to be held in Luxembourg on 18 April 2023 (the "EGM") to approve the renewal of the authorised share capital and the authorisation to the Board of Directors of the Company to waive, suspend and/or limit Shareholders' pre-emptive subscription rights in respect of the Company's authorised but unissued capital.

The authorised share capital of the Company currently consists of 450,000,000 Common Shares, par value U.S. \$ 2.00 per share. As at 17 March 2023, 302,858,466 Common Shares were in issue. Shareholders are reminded that at the extraordinary general shareholders meeting held on 14 April 2021 (the "2021 EGM"), the shareholders have authorised the Board of Directors to suppress Shareholders' pre-emptive subscription rights in respect of the issuance of authorised Common Shares of the Company for cash within the limit of the authorised unissued share capital for a maximum of 30,000,000 Common Shares (representing 10% of the issued capital as at 28 February 2021), for a two (2) year period from the date of publication of the Minutes of the 2021 EGM.

The authorisation granted at that time will be replaced by the new authorisation sought at the EGM. In order to maintain flexibility, the Company's shareholders will be asked to renew the authorised share capital (including the issued share capital) for an amount of U.S. \$ 900,000,000, to be represented by 450,000,000 authorised Common Shares, par value U.S. \$ 2.00 per share so that on the basis of the issued share capital on the date of the EGM there will be 147,141,534 unissued authorised Common Shares.

- B. Article Five, third paragraph, of the proposed amended Articles of Incorporation of the Company deals *inter alia* with Shareholders' pre-emptive rights and permits the Board of Directors of the Company, to the extent it deems advisable, to suppress Shareholders' pre-emptive subscription rights in respect of the issuance of authorised Common Shares of the Company for cash within the limit of the authorised unissued share capital for a maximum of 30,000,000 Common Shares (representing approximately 10% of the issued capital as at 17 March 2023), during the validity of the authorised Common Shares being the two (2) year period from the date of publication of the Minutes of the EGM.
- C. In conformity with the relevant provisions of the Luxembourg Company Law, this Report is the Board's recommendation to the Shareholders in respect of such authorisation to the Board to waive, suspend and/or limit Shareholders' pre-emptive subscription rights in respect of Common Shares of the Company in accordance with the proposal under (B.) above.
- D. Subsea 7 S.A. has issued a number of instruments giving access to its share capital. These instruments comprise options and share awards in relation to Common Shares in the Company.
- E. Further information on these options and share awards is disclosed on our website www.subsea7.com.

- F. The Board is of the opinion that the interest of the Company requires that maximum flexibility is granted to the Company in order to be able to react quickly and without delay to proceed to acquisitions and investments as and when the opportunities arise or to react to undesired or unsolicited offers. In order to be able to make acquisitions and investments the Company will have to ensure that the appropriate funding of the proposed or contemplated acquisitions are in place and therefore proceed to issues of shares, or any securities or rights convertible or exchangeable or giving rights to shares, prior to, at the time of or after such acquisitions with the proceeds of such issues of shares or securities giving rights to shares. Furthermore, the Board is of the view that the ability for the Company to be in a position to issue shares is important for the Company in order to be able to attract different types of investors and thereby benefit from more funding opportunities or to oppose an undesired or unsolicited offer.
- G. In light of the foregoing factors, the Board of Directors of the Company recommends, and seeks the authority of the Shareholders for the Board to implement, the waiver, suppression and/or limitation of Shareholders' preemptive subscription rights in respect of the issuance of shares for cash of up to 30,000,000 Common Shares, in particular in the following circumstances:
- (a) to issue Common Shares for cash whether in a private transaction or in a public offering at such price as determined by the Board of Directors of the Company (including below market value if deemed by the Board of Directors to be in the best interest of the Company) in order to enlarge or diversify the shareholder base through the entry of new investors; and
 - (b) to issue or offer Common Shares in connection with participation, financing, joint venture or other strategic proposals, strategies or projects and/or to secure financing if the Board of Directors of the Company determines same to be in the best interest of the Company (including below market value if deemed by the Board of Directors to be in the best interest of the Company)

provided that no Common Shares shall be so issued pursuant to subsection (a) or (b) hereof at a price of less than seventy-five percent (75%) of the market value determined by the average closing price for such Common Shares on the Oslo Stock Exchange for the ten most recent trading days prior to such transaction and further provided that Common Shares shall be issued otherwise on the terms and conditions set forth in this Report, including where the issue price is less than the "par value" of a Common Share (U.S. \$2.00), the Board of Directors shall be authorised to proceed with any such transaction and to transfer from the "paid-in" surplus ("free reserves") account of the Company to the par value account of the Company any such deficiency between the par value and the issue price of any such shares.

The foregoing will not prejudice the issuance of Common Shares under all share option, share award and equity incentive plans of the Company – subject to the conditions mentioned therein (including, as the case may be, below market value, at par value, at a discount, for free and by way of incorporation of any surplus, premium, any reserves, profits or otherwise).

- H. Accordingly, in view of the foregoing factors, the Board of Directors of the Company believes that it is in the best interest of the Company and its shareholders to have the flexibility (i) to issue shares (or without limitation, securities and instruments giving right to shares or convertible or exchangeable into shares) in order to maintain its independence, develop its business, protect its status and/or dispose of the possibility to react to circumstances requiring the issuance of shares (directly or indirectly) at such prices as the Board may determine in accordance with the above, and either with a premium or at par value or below par value including by way of incorporation of reserves and (ii) that the Board be authorised to waive, suspend and/or limit preferential or pre-emptive subscription rights of existing shareholders in respect of the issuance of authorised Common Shares of the Company within the limit of the authorised unissued share capital for a maximum of 30,000,000 Common Shares (representing approximately 10% of the issued capital as at 17 March 2023), each for a two (2) year period, which period will commence on the day of the EGM and end on the second anniversary of the date of publication of the Minutes of the EGM in the *Recueil des Sociétés et Associations* (Luxembourg electronic platform for official publications).

Luxembourg 17 March 2023

The Board of Directors of the Company
