

Subsea 7 S.A. awarded contract in the North Sea

Luxembourg – June 3, 2011 – Subsea 7 S.A. (Oslo Børs: SUBC) announced today the award of a SURF contract valued at approximately \$50 million from Dana Petroleum (E&P) Ltd at the Triton Field in the Greater Guillemot Area of the North Sea.

The scope of this contract includes the engineering, fabrication and installation of a 25km 10" water injection pipeline, the installation of a 16km static umbilical and umbilical riser base, together with tie-ins, testing and pre-commissioning.

Engineering work has commenced in the Aberdeen office with offshore installation expected during the second half of 2011.

Subsea 7 S.A. is a seabed-to-surface engineering, construction and services contractor to the offshore energy industry worldwide.
We provide integrated services, and we plan, design and deliver complex projects in harsh and challenging environments.

Forward-Looking Statements: Certain statements made in this announcement may include "forward-looking statements" within the meaning of Section 27A of the Securities Act and Section 21E of the US Securities Exchange Act of 1934. These statements may be identified by the use of words like "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "forecast," "project," "will," "should," "seek," and similar expressions. These forward-looking statements include, but are not limited to, statements as to the value of the awarded contract, statements as to the date of commencement and completion of each awarded contract and statements as to the scope of each awarded contract. The forward-looking statements reflect our current views and assumptions and are subject to risks and uncertainties. The following factors, and others which are discussed in our public filings and submissions with the U.S. Securities and Exchange Commission, are among those that may cause actual and future results and trends to differ materially from our forward-looking statements: our ability to recover costs on significant projects; the general economic conditions and competition in the markets and businesses in which we operate; our relationship with significant clients; the outcome of legal proceedings or governmental enquiries; uncertainties inherent in operating internationally; the timely delivery of ships on order and the timely completion of ship conversion programmes; the impact of laws and regulations; and operating hazards, including spills and environmental damage. Many of these factors are beyond our ability to control or predict. Given these factors, you should not place undue reliance on the forward-looking statements.
