

HSE Statement

- We are committed to conducting safe operations at every workplace with no harmful events.
- We consider all accidents, dangerous occurrences, occupational illnesses and environmental incidents to be preventable.
- We encourage and support a positive HSE culture throughout the organisation.
- We develop a high degree of HSE awareness and competence amongst our people through management communications and training/coaching programmes.
- We contribute to sustainable development and manage our environmental impact.
- We expect the same HSE standards of all others with whom we contract and interact.
- We comply with all applicable legislation in areas where we work.
- We review and monitor our HSE processes on a regular basis and strive for continuous improvement.
