ATTACHMENT A POLICY FOR AUDITOR NON-AUDIT SERVICES AND FEES

BASIC PRINCIPLE

Subsea 7 S.A. is committed to ensuring that the financial statements of the Group, the Company and its subsidiaries have an effective, independent and objective annual audit by its external auditor.

The provision of non-audit services policy provides guidance on the types of work that it is acceptable for the external auditor to undertake, and to provide clarity on the process to be followed for approval. The policy seeks to define services that the external auditor may not undertake under any circumstances.

Subject to the delegations set out below all non-audit services provided by the external auditor are subject to prior approval by the Audit Committee. Approval will only be given on the basis that the service will not compromise independence and/or objectivity and is either a natural extension of the audit or there are overriding business or efficiency reasons making the external auditors most suited to provide the services.

This policy will be reviewed on an annual basis by the Audit Committee.

EXCLUDED SERVICES

Certain services (excluded services) are not permitted. These are services which have the potential to impair the external auditor's independence and/or objectivity typically if they were to result in work which would be subject to audit by the external auditor. These services include:

- Tax planning where there is a potential threat that their objectivity as the company's auditor could be affected if the advice involves a significant degree of judgement and has a material effect on the financial statements
- Any service of a managerial nature that would create systems, processes or management judgements on which the financial statements are based or rely. A non-exhaustive list of examples includes:
 - bookkeeping and other services relating to accounting records and corporate financial statements
 - financial information systems design and implementation
 - valuation that has a material effect on the financial statements
 - tax services involving tax structures or products that depend for their effectiveness on a particular accounting treatment
 - executive recruiting and human resource services
 - actuarial services
 - management functions including secondments to management positions that include decision making
 - management of, or significant involvement in, internal audit services

The Audit Committee Chairman should be consulted before any assignment is agreed if there is any doubt whether it would fall into one of these categories.

APPROVAL POLICY

The Audit Committee will approve in advance annually the following:

- An annual budget for tax compliance services
- Delegated authority to the Chief Financial Officer for engagements, other than excluded services, that do not cumulatively exceed \$100,000 within a financial year.

All other services rendered by the external auditor are subject to advance approval by the Audit Committee.

Where the fee for an individual assignment exceeds the threshold, or where the cumulative spend exceeds \$100,000 within a financial year, the Audit Committee needs to approve the appointment in advance of the work commencing. Where urgent matters arise, the Audit Committee has delegated its authority to the Chairman of the Audit Committee between meetings. Such pre-approval should be ratified at the next meeting of the Audit Committee.

Irrespective of the financial threshold above, if there is any doubt as to whether the external auditor have a conflict of interest, approval by the Audit Committee is required.

REPORTING AND INDEPENDENCE

The external auditor will be responsible for maintaining detailed records of all non-audit services undertaken and for ensuring they do not undertake any excluded services. The external auditor will be responsible for advising the Chief Financial Officer if a request for them to undertake non-audit work will result in the limits set by the Audit Committee being exceeded.

The external auditor will provide the Audit Committee with a breakdown of all non-audit services provided and associated monetary amounts at each Audit Committee meeting as a standing agenda item.

SUBSEA 7 INTERNAL PROCESS

All approved non-audit fees for services provided by the external auditor must be processed using a Purchase Order. In addition the Group Financial Controller should be informed by email of the proposed fees and need for the work prior to the Purchase Order being raised.
