Forward-looking statements

This document may contain 'forward-looking statements' (within the meaning of the safe harbour provisions of the U.S. Private Securities Litigation Reform Act of 1995). These statements relate to our current expectations, beliefs, intentions, assumptions or strategies regarding the future and are subject to known and unknown risks that could cause actual results, performance or events to differ materially from those expressed or implied in these statements. Forward-looking statements may be identified by the use of words such as 'anticipate', 'believe', 'estimate', 'expect', 'future', 'goal', 'intend', 'likely', 'may', 'plan', 'project', 'seek', 'should', 'strategy', 'will', and similar expressions. The principal risks which could affect future operations of the Group are described in the 'Risk Management' section of the Group's Annual Report and Consolidated Financial Statements for the year ended 31 December 2019. Factors that may cause actual and future results and trends to differ materially from our forward-looking statements include (but are not limited to): (i) our ability to deliver fixed price projects in accordance with client expectations and within the parameters of our bids, and to avoid cost overruns; (ii) our ability to collect receivables, negotiate variation orders and collect the related revenue; (iii) our ability to recover costs on significant projects; (iv) capital expenditure by oil and gas companies, which is affected by fluctuations in the price of, and demand for, crude oil and natural gas; (v) unanticipated delays or cancellation of projects included in our backlog; (vi) competition and price fluctuations in the markets and businesses in which we operate; (vii) the loss of, or deterioration in our relationship with, any significant clients; (viii) the outcome of legal proceedings or governmental inquiries; (ix) uncertainties inherent in operating internationally, including economic, political and social instability, boycotts or embargoes, labour unrest, changes in foreign governmental regulations, corruption and currency fluctuations; (x) the effects of a pandemic or epidemic or a natural disaster; (xi) liability to third parties for the failure of our joint venture partners to fulfil their obligations; (xii) changes in, or our failure to comply with, applicable laws and regulations (including regulatory measures addressing climate change); (xiii) operating hazards, including spills, environmental damage, personal or property damage and business interruptions caused by adverse weather; (xiv) equipment or mechanical failures, which could increase costs, impair revenue and result in penalties for failure to meet project completion requirements; (xv) the timely delivery of vessels on order and the timely completion of ship conversion programmes; (xvi) our ability to keep pace with technological changes and the impact of potential information technology, cyber security or data security breaches; and (xvii) the effectiveness of our disclosure controls and procedures and internal control over financial reporting;. Many of these factors are beyond our ability to control or predict. Given these uncertainties, you should not place undue reliance on the forward-looking statements. Each forward-looking statement speaks only as of the date of this document. We undertake no obligation to update publicly or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Dual shock: Covid-19 and oil price

(1) Excluding IFRS 16 lease liabilities

Covid-19: immediate impact

- Protecting the health of our workforce while continuing to deliver clients' projects
 - Workforce of ~12,000 operating in 27 countries
- Executing projects safely through the crisis
 - New safeguards for crew on vessels
 - Travel restrictions, quarantine and extended rotations
 - Adapting to new work practices at worksites
 - Reduced operational capacity to enable social distancing
 - Suspension of activity at Wick due to labour availability
 - Remote working for engineers and office staff
- Logistical delays to projects and additional costs
 - Financial impact in Q1 2020: approximately \$15-20m

Oil price impact

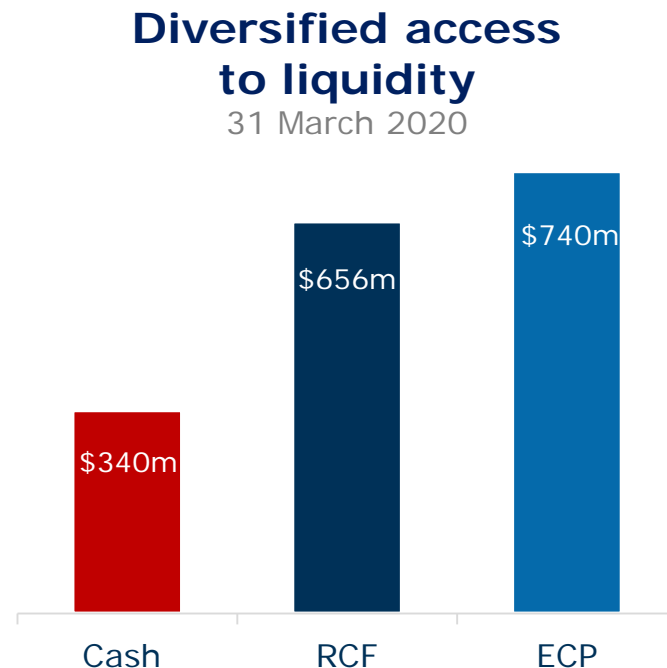

- Backlog security
 - Risk to contracts awarded in 2019 and earlier is considered low
 - Some deferral of SURF and Conventional awards made in 2020
 - Barossa – nine month delay; FID now expected Q2 2021
 - Sangomar, King's Quay, Anchor – currently progressing with some re-profiling of spend
- Pre-backlog delays
 - FEED contracts likely to take longer to convert to EPCI
- Tendering activity low
 - Clients have reduced capex by 20-25% in 2020
 - Hiatus in SURF and Conventional bidding expected at least until end 2020
 - Renewables activity remains robust

Swift and decisive action: costs and liquidity

- Focus on cash preservation and maintaining balance sheet strength
 - Steps being taken to reduce the cost base, commensurate with expected workload
 - Liquidity remains strong and sources of liquidity have been diversified
- Operating cost reductions to be rolled out in Q2 2020
 - Headcount reduction, mainly affecting non-permanent workforce
 - Reduction of the active fleet through non-renewal of charters and stacking vessels
 - Targeting annualised cash cost reduction of approximately \$400 million by Q2 2021
- Capital expenditure reduction
 - 2020 capex target reduced to \$230-250 million from \$270-290 million
 - Modern fleet allows a reduction in capex to minimal levels in 2021 and 2022
- Restructuring charge expected to be recorded in 2020

Swift and decisive action: strengthened access to liquidity

- Diversified access to liquidity
 - Increasing resilience to market downturn
- Cash and equivalents of \$340 million
 - Cash preservation measures in place
- Established a Euro Commercial Paper (ECP) programme equivalent to \$740 million
- RCF of \$656 million
 - Remains undrawn
 - Covenant-light
- No near-term debt maturities

Strategy: unchanged

Subsea Field of the Future: system and delivery

- Early engagement and partnerships
- System innovation and enabling Products
- Digital delivery of projects and services
- Integrated SPS and SURF

Energy transition: proactive participation

- Oil and gas: energy of our operations and investment in technology to support the market growth of low carbon energy sources
- Renewables: offshore wind

Financial guidance

- 2020 guidance withdrawn on 1 April 2020
- Visibility on influencing factors too low to give meaningful guidance
 - Covid-19: longevity and impact unknown
 - Oil price: full demand impact of Covid-19 unknown
 - Outlook for oil industry capital spending is uncertain
 - Renewables remains active and provides some support
- Addressing those elements under our control
 - Operating costs: targeting an annualised reduction of ~\$400 million from Q2 2021
 - 2020 capex: guidance reduced to \$230-250 million from \$270-290 million
 - 2021-22 capex: targeting a reduction to a minimal level
 - Further details of opex and capex reductions to be announced in Q2 2020
- Balance sheet: diversified access to liquidity

Summary: resilient in uncertain times

- Experienced partner for clients navigating a challenging operational environment
- Solid financial position with strong liquidity
- Proven ability to re-shape the business in response to the change in outlook
- Robust strategy supporting Subsea Field of the Future in oil and gas
- Renewables outlook unchanged and a source of profitable growth in the long term
